

Plants of GITAM University Campus Visakhapatnam

Prof.K.Mohan, Director
Gitam School of Architecture
Visakhapatnam

Acknowledgement

- I would like to thank Hon'ble Vice-Chancellor and Esteemed Registrar of GITAM University for encouraging me to carry out this study.
- I would like to thank G.Govinda Rajulu, Photographer, GITAM School of Architecture for assisting me in photographing many of the plant species.
- Thanks are due to P.Venkateshwar Rao, Garden Supervisor, Grade-1, Gitam University for identifying specific plant species.
- Discussions with Dr. G. Vijaya Lakshmi, Dept of Bio technology, GIT, GITAM University in the initial stages of this study proved to be fruitful for which I would like to thank her.

Prof.K.Mohan

Albizzia lebeck

- **Common Name:** Woman's Tongue, Siris
- **Telugu Name:** Dirisena Chettu
- **Family:** Fabaceae
- **Genus:** Albizzia
- **Species:** A. lebeck
- **Type:** Evergreen shrub
- **Native To:** Indo-Malaya, Australia and New Guinea
- **Uses:** Avenue plant, medicinal properties, nitrogen fixing
- **Location:** Outside Bheema's Canteen

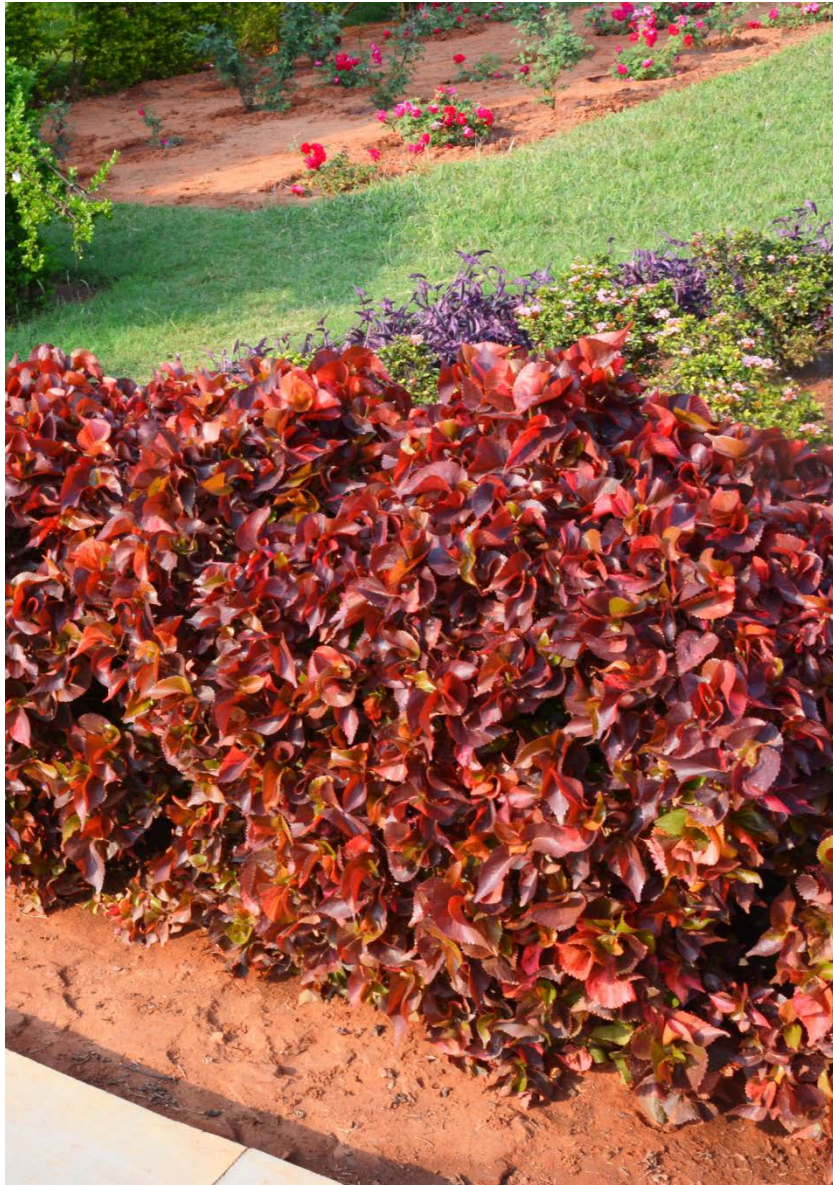

Acalypha wilkesiana java white

- Common Name: Copperleaf, Copperplant
- Telugu Name: Harita-Manjari, Kuppi
- Family: Euphorbiaceae
- Genus: Acalypha
- Species: A. wilkesiana
- Type: Evergreen shrub with greenish yellow to ivory green mottled with splotches of green
- Native To: Pacific Islands
- Uses: Cultivated for its foliage as a hedging plant, bedding plant, medicinal properties
- Location: Visveswariah Bhawan

Acalypha wilkesiana macrophylla

- Common Name: Copperleaf
- Telugu Name: Harita-Manjari, Kuppi
- Family: Euphorbiaceae
- Genus: Acalypha
- Species: A.wilkesiana
- Type: Evergreen shrub
- Native To: Pacific Islands
- Uses: Cultivated for its foliage as a hedging plant, medicinal properties
- Location: Gandhi Park

Acalypha wilkesiana dwarf

- Common Name: Copperleaf
- Telugu Name: Harita-Manjari, Kuppi
- Family: Euphorbiaceae
- Genus: Acalypha
- Species: A. wilkesiana
- Type: Evergreen shrub with toothed leaves
- Native To: Pacific Islands
- Uses: Cultivated for its foliage as a hedging plant, medicinal properties
- Location: Visveswariah Bhawan

Acacia auriculiformis

- **Common Name:** Ear –leaf Acacia
- **Telugu Name:** Minnumaanu
- **Family:** Fabaceae
- **Genus:** Acacia
- **Species:** A. auriculiformis
- **Type:** Deciduous Tree
- **Native To:** Australia and Indonesia
- **Uses:** Ornamental plant and shade tree, drought tolerant
- **Location:** Behind Kokila Sadan

Adenium obesum

- **Common Name:** Desert Rose
- **Telugu Name:** Adenium
- **Family:** Apocynaceae
- **Genus:** Adenium
- **Species:** A.obesum
- **Type:** Evergreen succulent shrub
- **Native To:** Sahel (Sahara)
- **Uses:** Ornamental plant, drought resistant
- **Location:** In front of GIS

Aegele marmelos

- **Common Name:** Bhel, Bengal Quince
- **Telugu Name:** Bilvamu, Maaredu, Patri Chettu
- **Family:** Rutaceae
- **Genus:** Aegle
- **Species:** A. marmelos
- **Type:** Slender, aromatic tree with three leaflets
- **Native To:** India, and found widely in Asia
- **Uses:** Sacred for Hindus, widely found in Indian temples, fruit and leaves edible
- **Location:** Bheema's Canteen

Agave americana medio-picta alba

- Common Name: Century Plant
- Telugu Name: Kittanara
- Family: Agavaceae
- Genus: Agave
- Species: *A. americana* var. *mediopicta*
- Type: A pretty, sought after succulent
- Native To: Mexico and the United States
- Uses: Ornamental, drought resistant
- Location: Near Shirdi Sai Temple

Agave augustifolia marginata

- Common Name: Carribean Century Plant
- Telugu Name: Kalabanda
- Family: Aspragaceae
- Genus: Agave
- Species: A.augustifolia
- Type: Evergreen succulent plant
- Native To: Mexico and Central America
- Uses: Ornamental accent plant
- Location: Gandhi Park

Alamanda cathartica

- **Common Name:** Allamanda
- **Telugu Name:** Allamanda
- **Family:** Apocynaceae
- **Genus:** Allamanda
- **Species:** A. cathartica
- **Type:** Evergreen shrubs or vines
- **Native To:** The Americas
- **Uses:** Ornamental plant cultivated for its large yellow flowers
- **Location:** N.T.R. Park

Albizia saman

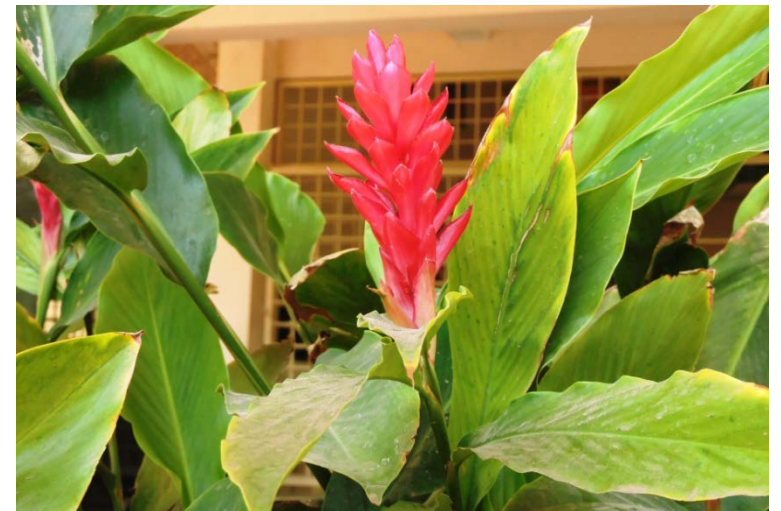

- Common Name: Rain Tree
- Telugu Name: Nidra Ganneru
- Family: Fabaceae
- Genus: Albizia
- Species: A.saman
- Type: Evergreen
- Native To: South America
- Uses: Parks, school grounds and homesteads
- Location: Kokila Sadan

Alpinia purpurata

- **Common Name:** Red Ginger
- **Telugu Name:** Nela Usiri
- **Family:** Zingiberaceae
- **Genus:** Alpina
- **Species:** A.purpurata
- **Type:** Plant with showy flowers on long brightly colored red bracts
- **Native To:** Malaysia
- **Uses:** Houseplant, medicinal plant
- **Location:** Cotton Bhawan

Areca catechu palm

- **Common Name:** Betel Palm, Areca-nut palm
- **Telugu Name:** Ghonta
- **Family:** Arecaceae
- **Genus:** Areca
- **Species:** Areca catechu
- **Type:** Palm which produces betel-nut, medium sized growing up to 20m or more
- **Native To:** Tropical Pacific, Asia and Africa
- **Uses:** Ornamental plant
- **Location:** In front of GIM building

Arelia Bush (gold)

- **Common Name:** Spikenard
- **Telugu Name:** Aralia
- **Family:** Araliaceae
- **Genus:** Aralia
- **Type:** Evergreen shrub
- **Native To:** Asia and the Americas
- **Uses:** Ornamental plant, edging plant
- **Location:** In front of Gitam Centre

Artocarpus heterophyllus

- **Common Name:** Jack fruit tree, Kathal
- **Tellugu Name:** Panasa Chettu
- **Family:** Moraceae
- **Genus:** Artocarpus
- **Species:** A. heterophyllus
- **Type:** Evergreen Tree
- **Native To:** South East Asia, India
- **Uses:** Edible Fruit, All parts of the tree have medicinal properties.
- **Location:** Nightengale Park

Aurecaria columnaris

- **Common Name:** New Caledonia pine
- **Telugu Name:** Arcaria
- **Family :** Araucariaceae
- **Genus :** Araucaria
- **Species:** A. columnaris
- **Type :** Narrowly conical evergreen tree
- **Native To :** New Calodina
- **Uses:** Ornamental, Accent plant, wind resistant
- **Location:** Behind Visveswariah Bhavan

Azadrachta indica

- **Common Name:** Neem
- **Telugu Name:** Vepa Chettu
- **Family:** Meliaceae
- **Genus:** Azadrachta
- **Species:** A.indica
- **Type:** Deciduous
- **Native To:** India, Nepal and Pakistan
- **Uses:** Avenues, parks and gardens, all parts of the tree have medicinal value
- **Location:** In front of Gitam Bhawan

Bambusa ventricosa

- **Common Name:** Buddha's Belly Bamboo
- **Telugu Name:** Bongu
- **Family:** Arecaceae
- **Genus:** Bambusa
- **Species:** B.ventricosa
- **Type:** Fastest growing species of Bamboo
- **Native To:** China and Vietnam
- **Uses:** Cultivated for its ornamental and bulbous culms
- **Location:** Near School of Gandhian Studies

Bambusa vulgaris

- **Common Name:** Golden Bamboo
- **Telugu name:** Dieldrin
- **Family:** Poaceae
- **Genus:** Bambusa
- **Species:** B.Vulgaris
- **Type:** Fast growing grass with woody stems
- **Native To:** Tropical/ Sub-Tropical Asia
- **Uses:** Erosion control and drought resistant and has medicinal value
- **Location:** Behind GSA

Bambusa vulgaris

- **Common Name:** Common Bamboo
- **Telugu Name:** Veduru
- **Family:** Poaceae
- **Genus:** Bambusa
- **Species:** B.Vulgaris
- **Type:** Open clump-type bamboo cultivar with green stems
- **Native To:** Indo-China
- **Uses:** Ornamental, fences and border hedges
- **Location:** Besides School of Law

Bambusa vulgaris variegata

- **Common Name:** Easter Lily
- **Family:** Liliaceae
- **Genus:** Lilium
- **Species:** L.Longiforum
- **Type:** Evergreen shrub
- **Habitat:** Native to Ryukyu Islands, Japan
- **Uses:** Ornamental parks, timber and paper making
- **Location:**GIMSR

Bougainvillia

- **Common Name:**
- **Telugu Name:**
- **Family:**
- **Height :** 9-14m
- **Spread:** 10-14m
- **Type:** Deciduous
- **Uses:** Avenues, Parks and Gardens, Attractive purple flowers
- **Location:** Opp. Gandhi Park

Bougainvillea variegata

- Common Name: Bougainvillea
- Telugu Name: Kagitala Puvvu
- Family: Nyctaginaceae
- Genus: Bougainvillea
- Species: B.Variegata
- Type: Evergreen ornamental plant with thorns
- Native To: Brazil
- Uses: Ornamental plant
- Location: Gandhi Park

Bauhinea blakeana

- **Common Name:** Hong Kong Orchid Tree
- **Telegu Name:** Devakanchanamu
- **Family:** Fabaceae
- **Genus:** Bauhinea
- **Species:** B.Blakeana
- **Type:** Medium sized evergreen tree
- **Native To:** Hong Kong
- **Uses:** Avenues, Parks and Gardens, Attractive purple flowers, drought tolerant
- **Location:** GIMSR

Bauhinea purpurea

- **Common Name:** Purple Orchid Tree
- **Telugu Name:** Devakanchanamu
- **Family:** Caecalpinaceae
- **Genus :** Phanera
- **Species:** P. purpurea
- **Type :** Deciduous Tree
- **Habitat :** Native to South China and South East Asia
- **Uses:**, Avenue tree, Medicinal Plant
- **Location:** Staff Quarters

Beucarnea recurvata

- **Common Name:** Elephant's Foot, Ponytail Palm
- **Family:** Asparagaceae
- **Genus:** Beucarnea
- **Species:** B.recurvata
- **Type:** Evergreen perennial
- **Native To:** Eastern Mexico
- **Uses:** Ornamental plant grown indoors and outdoors
- **Location:** GIMSR

Bismarkia nobilis

- **Common Name:** Bismark Palm
- **Family:** Arecaceae
- **Genus:** Bismarkia
- **Species:** B.nobilis
- **Type:** Monotypic palm with silver-blue foliage
- **Native To:** Madagascar
- **Uses:** Specimen plant, requires plenty of room because of its massive crown.
- **Location:** Opp. Gandhi Park

Calistemon lanceolatus

- **Common Name:** Bottle Brush
- **Telugu Name:** Nethi Maamadi
- **Family:** Myrtaceae
- **Genus:** Callistemon
- **Species:** C.lanceolatus
- **Type:** Evergreen weeping shaped tree/shrub
- **Native To:** Australia/New Zealand
- **Uses:** Parks and gardens, drought resistant, attracts birds and butterflies
- **Location:** Kokila Sadan

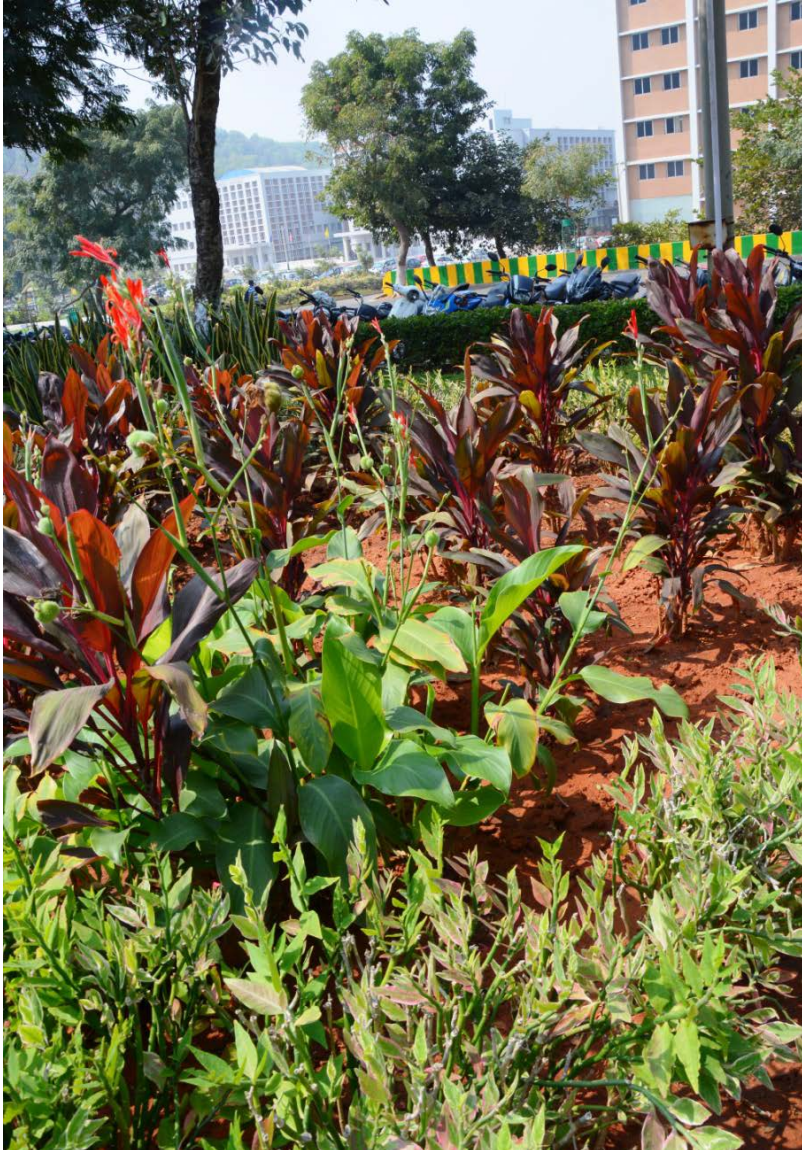

Calophyllum ionophyllum

- **Common Name:** Indian laurel
- **Telugu Name:** Punnagamu, Ponna
- **Family:** Calophyllaceae
- **Genus:** Calophyllum
- **Species:** C.Inophyllum
- **Type:** Large evergreen tree
- **Native To:** East Africa
- **Uses:** Avenues, Parks and Gardens, medicinal plant
- **Location:** Front of Kokila Sadan

Canna indica

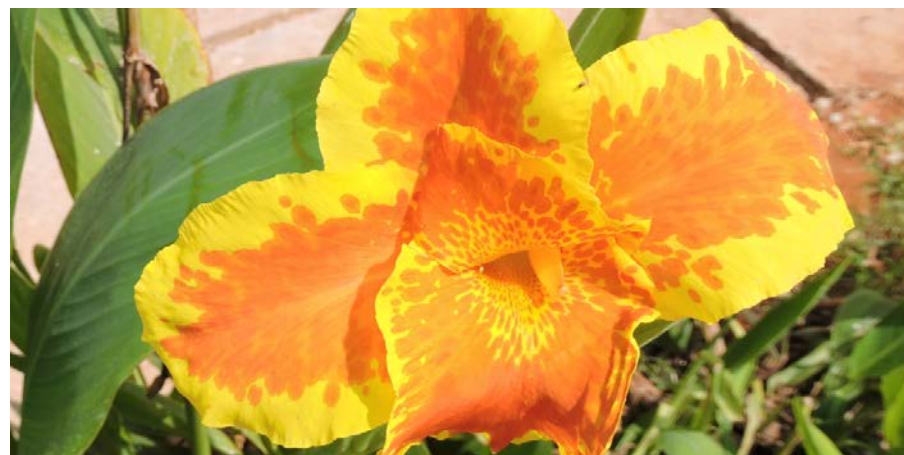

- **Common Name:** Indian shot, African arrow root
- **Telugu Name:** Guruginja, Metta- tamara
- **Family:** Cannaceae
- **Genus:** Canna
- **Species:** C.Indica
- **Type:** Perennial growing upto 1.5m in height
- **Native To:** South and Central America, Mexico
- **Uses:** Fruit and root edible, medicinal properties
- **Location:** Near Gandhiji's statue opp.Gitam Centre

Canna indica 'Yellow King Humbert'

- **Common Name:**
- **Telugu Name:** Krishmatamara
- **Family:** Cannaceae
- **Genus:** Canna
- **Species:** C.Indica
- **Type:** Deciduous plant
- **Native To:**
- **Uses:** Gardens, edging plants, seeds used for jewelry and musical instruments
- **Location:** Institute of Pharmacy

Carica papaya

- **Common Name:** Papaya
- **Family:** Caricaceae
- **Genus:** Carica
- **Species:** C.papaya
- **Type:** Small, sparsely branched tree with single stem
- **Native To:** Mexico and South America
- **Uses:** Fruit edible
- **Location:** Staff Quarters

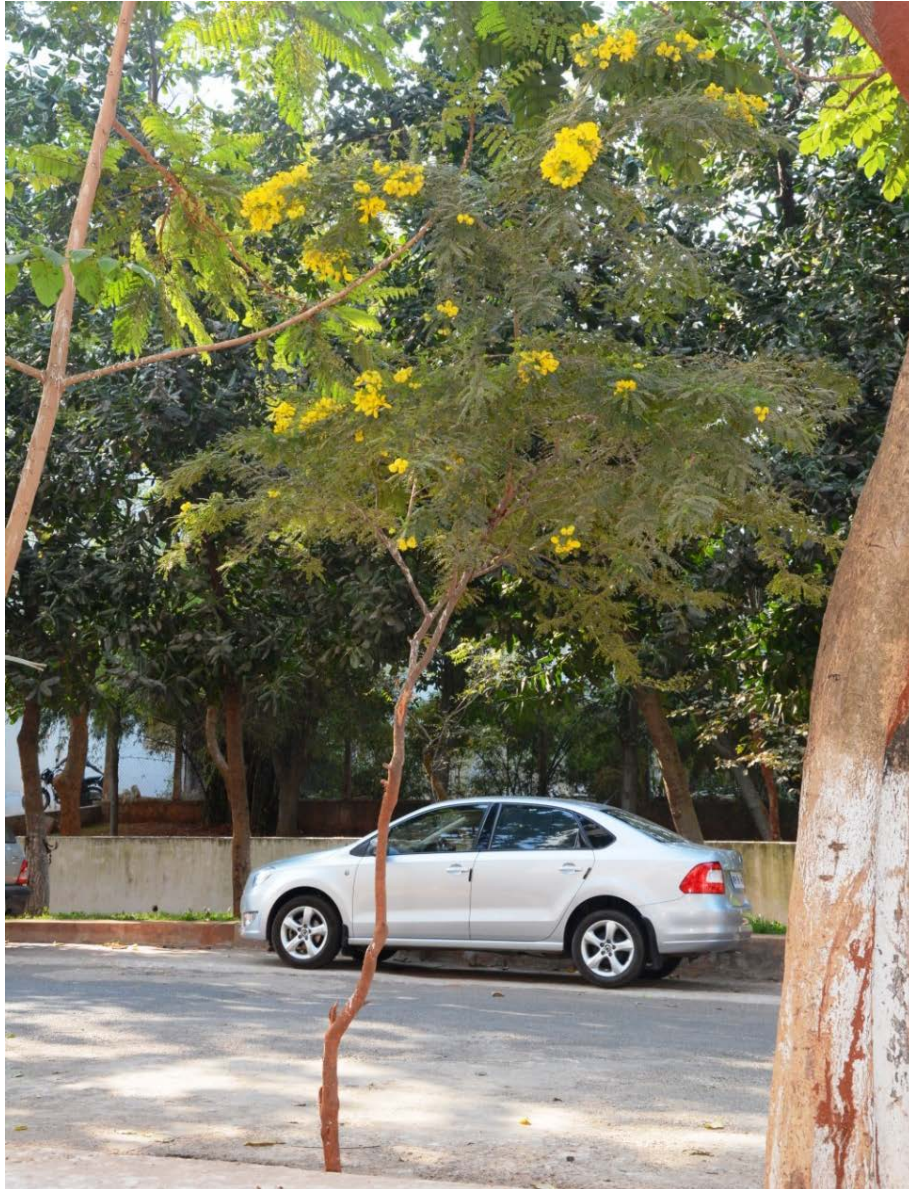

Caryota urens

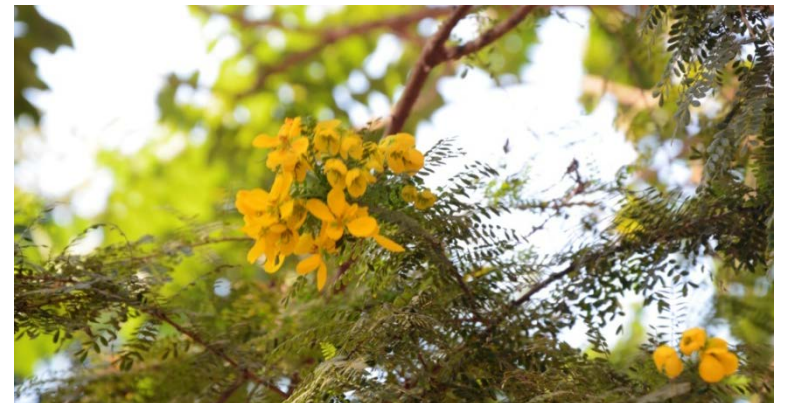

- **Common Name:** Solitary Fish-tail Palm
- **Telugu Name:** Jeeluga
- **Family:** Arecaceae
- **Genus:** Caryota
- **Species:** C.urens
- **Type:** Solitary trunked tree , monocarpic (dies after the completion of the flower and fruiting process)
- **Native To:** Indian subcontinent and Asia
- **Uses:** Ornamental Plant, Elephant Feed
- **Location:** Gandhi Park

Cassia biflora

- **Common Name:** Desert Cassia
- **Telegu Name:** Cassia
- **Family:** Legiminosae
- **Genus:** Cassia
- **Species:** C.biflora
- **Habitat:** West Indies, Peurto Rico, Bahamas
- **Type:** Medium sized evergreen shrub
- **Uses:** Bonsai, Container, Street, Drought Tolerant
- **Location:** Front of GSA Building

Catharanthus roseus

- Common Name: Madagascar Periwinkle
- Telugu Name: Billa Ganneru
- Family: Apocynaceae
- Genus: Catharanthus
- Species: C.roseus (alba)
- Type: Evergreen shrub or herbaceous plant
- Native To: Madagascar and Australia
- Uses: Ornamental plant
- Location: Median in front of GSIBM

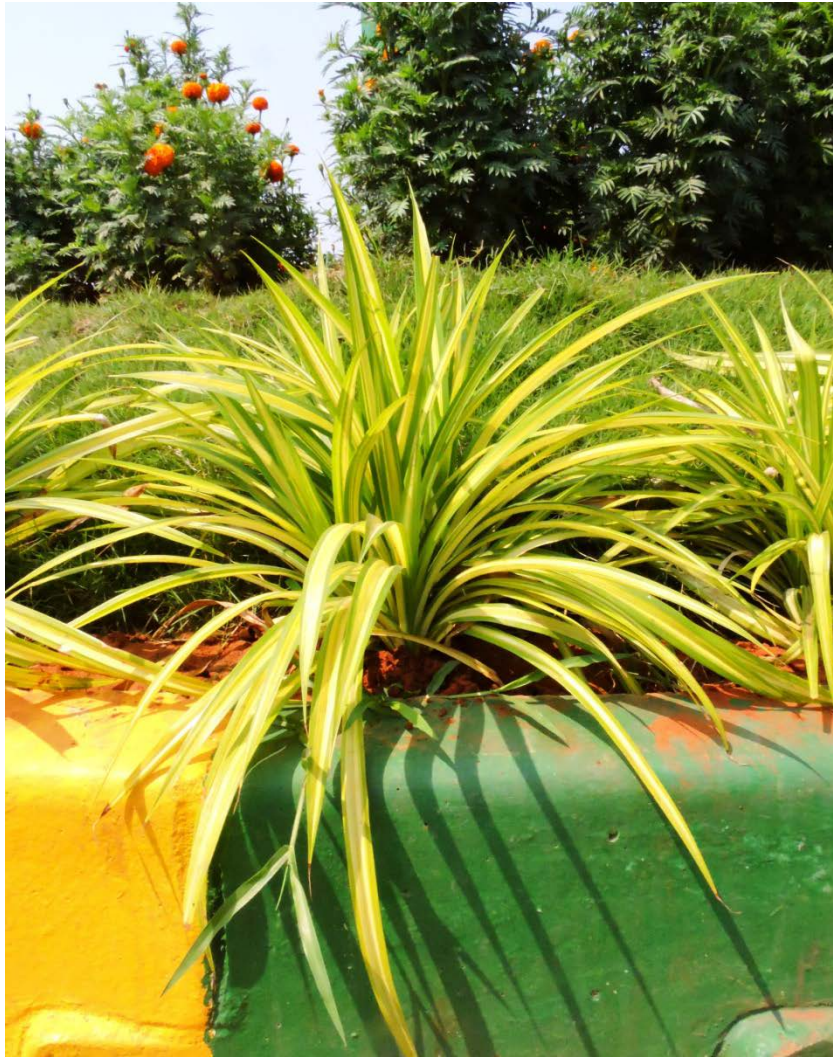

Catharanthus roseus

- Common Name: Madagascar Periwinkle
- Telugu name: Billaganneru
- Family: Apocynaceae
- Genus: Catharanthus
- Species: C.roseus
- Type: Evergreen sub shrub or herbaceous plant
- Native To: Madagascar
- Uses: Ornamental and medicinal plant
- Location: GIMSR

Chlorophytum comosum

- Common Name: Spider Plant
- Telugu Name: Shweta Musuli
- Family: Asparagaceae
- Genus: Chlorophytum
- Species: C. Comosum
- Type: Evergreen
- Native To: Tropical and Southern Africa
- Uses: Bedding plant, container plant
- Location: GIMSR

Clematis ternifolia

- **Common Name:** Silver Oak
- **Family:**
- **Height :** 9-14m
- **Spread:** 10-14m
- **Type:** Deciduous
- **Uses:** Avenues, Parks and Gardens, Attractive purple flowers
- **Location:** Opp. Gandhi Park

Cocos nucifera

- **Common Name:** Coconut palm
- **Telugu Name:** Kobbari Chettu
- **Family:** Arecaceae
- **Genus:** Cocos
- **Species:** C.nucifera
- **Type:** Large palm growing upto 30m
- **Uses:** Decoration,as well as for its culinary and non culinary uses
- **Location:** Near Pharmacy Building

Codiaeum variegatum

- **Common Name:** Zanzibar croton
- **Telugu Name:** Croton
- **Family:** Euphorbiaceae
- **Genus:** Codiaeum
- **Species:** C.variegatum
- **Type:** Shrub
- **Native To:** South East Asia,Indonesia
- **Uses:** Grown for foliage and combination plantings
- **Location:** Visveswariah Bhawan

Codiaeum variegatum

- **Common Name:** Garden Croton
- **Telugu Name:** Bhutankusham
- **Family:** : Euphorbiaceae
- **Genus:** Codiaeum
- **Species:** C.Variegatum
- **Type:** Evergreen shrub
- **Native To:** Indonesia, Malaysia and Australia
- **Uses:** Attractive hedges and potted plants valued for their striking foliage
- **Location:** Behind Visveswariah Bhawan

Cordyline fruiticosa

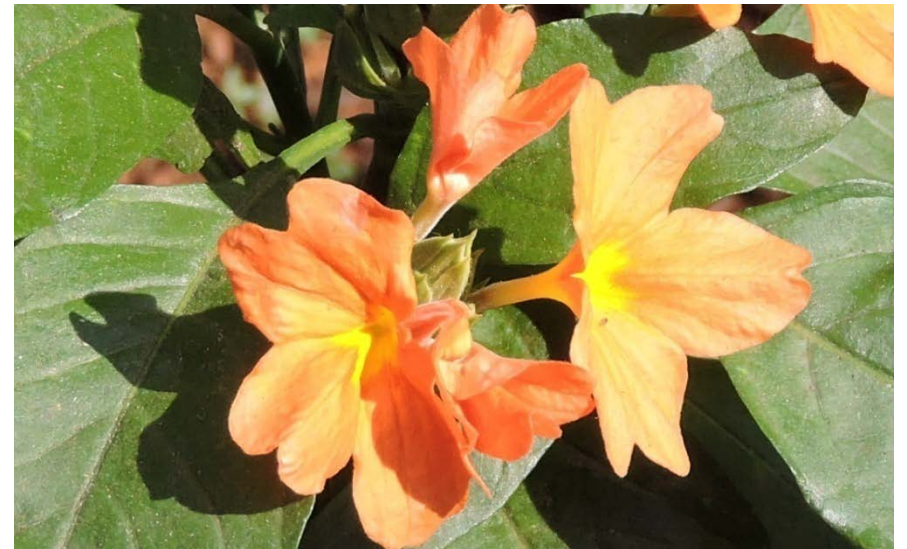

- Common Name: Ti plant, Cabbage Plant
- Telugu Name: Cordyline
- Family: Asparagaceae
- Genus: Cordyline
- Species: C. fruiticosa
- Type: Broadleaf evergreen
- Native To: South East Asia, Australia and Hawaii
- Uses: Ornamental plant
- Location: Gandhi Park

Crossandra infundibuliformis

- Common Name: Firecracker flower
- Telugu Name: Kankambaram
- Family: Acanthaceae
- Genus: Crossandra
- Species: C. infundibuliformis
- Type: Evergreen shrub
- Native To: India and Sri Lanka
- Uses: Ornamental plant
- Location: New Bheema's Canteen

Crinum asiaticum

- **Common Name:** Spider Lily
- **Family:** Amaryllidaceae
- **Genus:** Crinum
- **Species:** C.asiaticum
- **Type:** Evergreen ornamental
- **Native To:** China, Hong Kong, India, Japan, Taiwan, Australia and Java
- **Uses:** Ornamental shrub for gardens
- **Location:** In front of ICT building

Casurina equistifolia

- **Common Name:** Australian Pine Tree
- **Telugu Name:** Sarvi Chettu
- **Family:** Casuarinaceae
- **Genus:** Casuarina
- **Species:** C. equistifolia
- **Type:** Evergreen tree
- **Native To:** Burma, Veitnam and Malaysia
- **Uses:** Wind-breaks and erosion control
- **Location:** GSIBM

Cycas revoluta

- **Common Name:** Sago palm
- **Telugu Name:** Kamakshi, Madan Kamakshi
- **Family:** Cycadaceae
- **Genus:** Cycas
- **Species:** C.revoluta
- **Type:** Very slow growing cycad with symmetrical and ornamental foliage
- **Native To:** Southern Japan
- **Uses:** Used for the production of sago as well as ornamental plant
- **Location:** GIMSR

Cyperus alternifolius

- Common Name: Umbrella Plant
- Family: Cyperaceae
- Genus; Cyperus
- Species: C.alternifolius
- Type: Grass like plant
- Native To: Madagascar
- Uses: Ornamental plant
- Location: In front of GIM building

Cyrtostachys renda

- Common Name: Lipstick Palm
- Family: Arecaceae
- Genus: Cyrtostachys
- Species: C.renda
- Type: Multi-stemmed palm tree
- Native To: Thailand, Malaysia and Indonesia
- Uses: In gardening and landscaping projects
- Location: N.T.R. Park

Dalbergia sisoo

- **Common Name:** Sisham, North Indian Rosewood
- **Telegu Name:** Eridi, Sissu
- **Family:** Fabaceae
- **Genus :** Dalbergia
- **Species:** D.Sissoo
- **Type :** Deciduous
- **Native To:** Himalyan Foothills
- **Uses:** Fuel wood, shade, street tree, timber tree, drought resistant.
- **Location:** Near Shirdi Sai Temple

Delonix regia

- **Common Name:** Royal Poinciana, Gul Mohur
- **Telugu Name:** Turrai
- **Family:** Caesalpineoideae
- **Genus:** Delonix
- **Species:** D.regia
- **Type:** Medium-sized evergreen tree
- **Native To :** Madagascar
- **Uses:** Ornamental avenue tree with red flowers, drought and salt resistant
- **Location:** Behind GSIB

Diffenbachia amoena

- **Common Name:** Dumb Cane
- **Telugu Name:** Machi Patram
- **Family:** Aracaceae
- **Genus:** Diffenbachia
- **Species:** D.amoena
- **Native To:** Mexico, South Indies, Argentina
- **Type:** Perrenial herbaceous plant
- **Uses:** Houseplant because of its tolerance of shade, but contains oxalic acid and hence poisonous
- **Location:** Behind Bheema's Canteen

Draceana fragrans "Victoriae"

- **Common Name:** Kadamb
- **Family:** Asparagaceae
- **Height :** 9-14m
- **Spread:** 10-14m
- **Type:** Evergreen
- **Ecology:** Native to India
- **Uses:** Ornamental parks, timber and paper making, Drought resistant
- **Location:** Main Bheema's canteen

Draecenia marginata

- **Common Name:** Madagascar Dragon Tree
- **Telugu Name:** Draecenia
- **Family:** Aspragaceae
- **Genus:** Dracaena
- **Species:** D. marginata
- **Type:** Shrub like with slender stem and flexible strap- shaped leaves
- **Native To:** Madagascar
- **Uses:** Indoor plant, cleans the air
- **Location:** Behind Bheema's Canteen

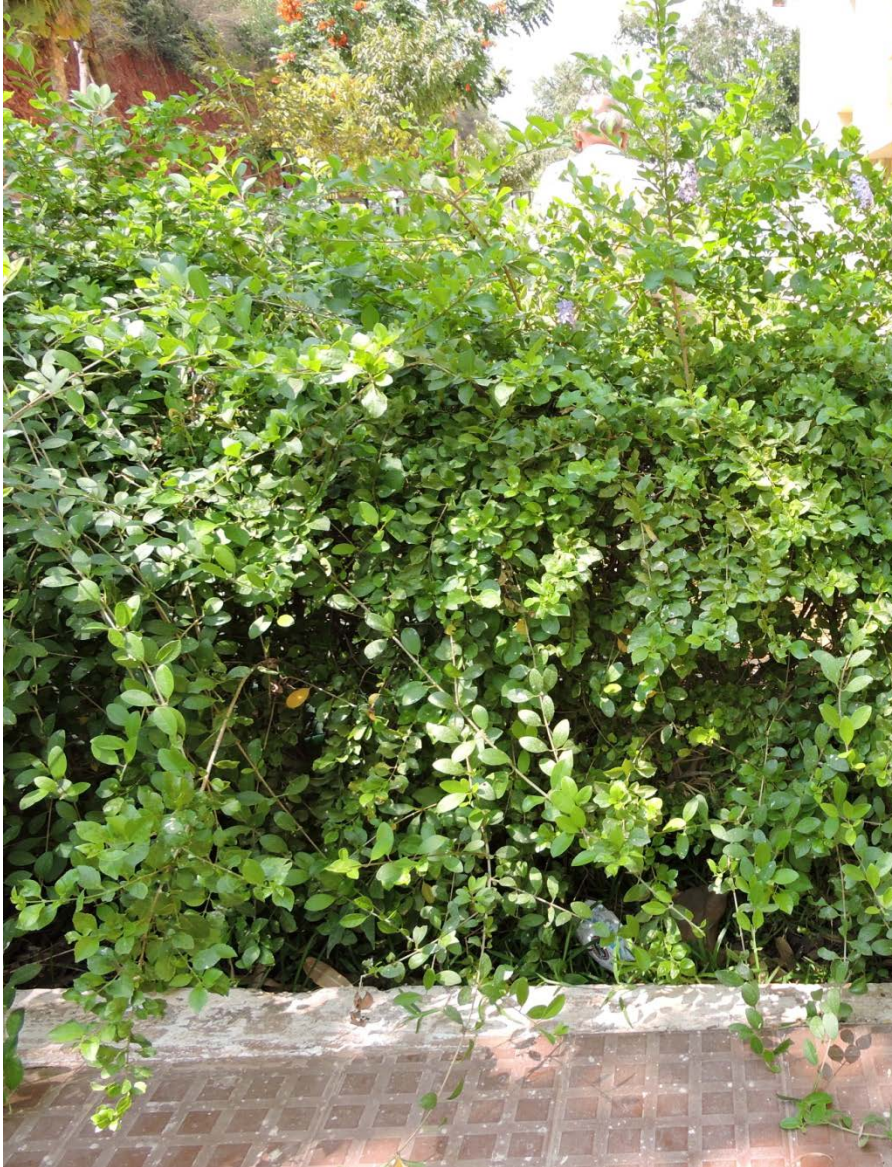

Dracaena reflexa

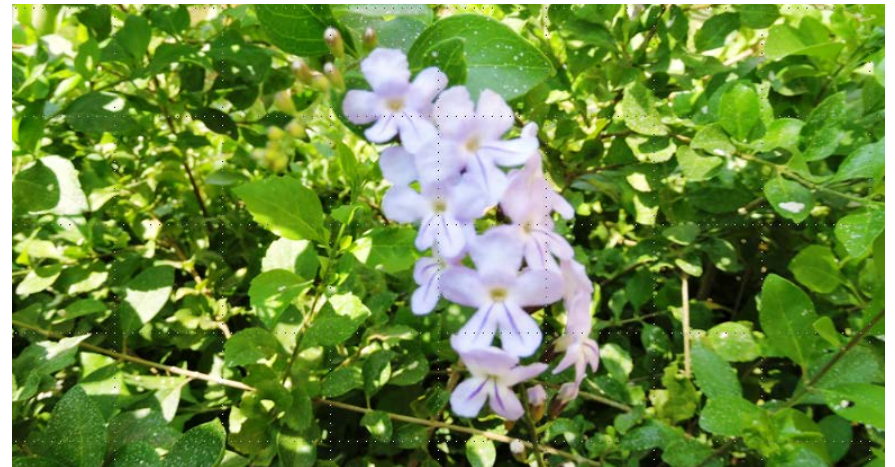

- **Common Name:** Song of India
- **Family:** Aspragaceae
- **Genus:** Dracaena
- **Species:** D. reflexa
- **Type:** Evergreen shrub with colored leaves
- **Native To:** Madagascar and Mauritius
- **Uses:** Parks and gardens as a specimen plant , accent or pruned to create a border
- **Location:** Behind Bheema's Canteen

Duranta erecta

- **Common Name:** Golden dewdrops, skyflower
- **Telugu Name:** Chinnakasinda
- **Family:** Verbenaceae
- **Genus:** Duranta
- **Species:** D.erecta
- **Type:** Fast growing multi stemmed shrub
- **Native To:** Mexico and South America
- **Uses:** Hedging plant, flowers and berries attract butterflies and humming birds
- **Location:** Pharmacy Building

Dypsis decaryi

- **Common Name:** Triangle Palm
- **Telugu Name:** Triangle Palm
- **Family:** Arecaceae
- **Genus:** Dypsis
- **Species:** D. decaryi
- **Type:** Evergreen
- **Native To:** Madagascar, Threatened Satus
- **Uses:** Ormamental plant, Accent Plantt
- **Location:** Gandhi Park

Dypsis lutescens

- **Common Name:** Areca Palm
- **Telugu Name:** Poka Tati
- **Family:** Arecaceae
- **Genus:** Dypsis
- **Species:** D.Lutescens
- **Type:** Palm with multiple stems
- **Native To:** Madagascar
- **Uses:** Ornamental plant
- **Location:** Cotton Bhawan

Eucalyptus globulus

- Common Name: Blue Gum
- Telugu Name: Neelagiri
- Family: Myrtaceae
- Genus: Eucalyptus
- Species: E.globulus
- Type : EvergreenTree
- Native To: Australia
- Uses: Avenue tree, Parks, Windbreaks
- Location: Adjacent to Stadium Grounds

Euphorbia leucocephala

- **Common Name:** Snow Bush, Bomajevudu
- **Family:** Asparagaceae
- **Genus:** Eurphorbia
- **Species:** E.leucocephala
- **Type:** Scented shrub with decorative white bracts
- **Native To:** Mexico and Mesoamerica
- **Uses:** Ormamental plant
- **Location:** Near School of Gandhian Studies

Euphorbia milii

- **Common Name:** Crown of Thorns, Christ Plan
- **Telugu Name:** Mulla euphorbia
- **Family:** Euphorbiaceae
- **Genus:** Euphorbia
- **Species:** E.milii
- **Type:** Succulent climbing shrub
- **Native To:** Madagascar
- **Uses:** Ornamental shrub in parks and gardens
- **Location:** Opp. Gandhi Park

Euphorbia pulcherrima (poinsettia)

- **Common Name:** Poinsettia, Christmas Flower
- **Family:** Euphorbiaceae
- **Genus:** Euphorbia
- **Species:** E. pulcherrima
- **Type:** A small deciduous shrub
- **Native To:** Mexico and Guatemala
- **Uses:** Cultivated for its striking red bracts
- **Location:** Front of Industrial Enng. Bhawan

Euphorbia tithymaloides

- **Common Name:** Devil's Backbone, Jacob's ladder
- **Telugu Name:** Kanchipala, Nallamandu
- **Family:** Euphorbiaceae
- **Genus:** Euphorbia
- **Species:** *E. tithymaloides*
- **Native To:** Tropical Americas
- **Uses:** Hedge border plant which can be trimmed, drought tolerant
- **Location:** Visweshvariah Bhavan

Ficus Bengalhensis

- **Common Name:** Indian Banyan
- **Telugu Name:** Marri chettu
- **Family:** Moraceae
- **Genus:** Ficus
- **Species:** F.bengalhensis
- **Type:** Very large evergreen tree
- **Native To:** Indian Subcontinent
- **Uses:**, Sacred tree in India, shade, drought resistant, medicinal use, fruits attract Myna birds
- **Location:** Opp. KRC

Ficus benjamina

- **Common Name:** Ficus Tree
- **Telugu Name:** Ficus
- **Family:** Moraceae
- **Genus:** Ficus
- **Species:** F.benjamina
- **Type:** Decidous
- **Native To :** Native to Asia and Australia
- **Uses:** Avenues, Parks and Gardens, Removes Gaseous Formaldehyde from indoor air
- **Location:** GIMSR

Ficus elastica

- **Common Name:** Rubber tree
- **Telugu Name:** Rubber chettu
- **Family:** Moraceae
- **Genus:** Ficus
- **Species:** F.elastica
- **Type:** EvergreenTree
- **Native To:** India, Nepal, Burma, China, Malaysia and Indonesia
- **Uses:** Ornamental plant in gardens and houses
- **Location:** Gandhi Park

Ficus panda

- **Common Name:** Ficus tree
- **Telugu Name:** Ficus
- **Family :** Moraceae
- **Genus:** Ficus
- **Species:** F.panda
- **Type:** Decidous
- **Native To:** Native throughout the Tropics
- **Uses:** Decorative plant in gardens, avenues,
- **Location:** GIMSR

Ficus religiosa

- **Common Name:** Sacred Fig, Peepal
- **Telugu Name:** Gangi ravi
- **Family:** Moraceae
- **Genus:** Ficus
- **Species:** F. religiosa
- **Type:** Semi- Evergreen tree
- **Native to:** Indian subcontinent and China
- **Uses:** Used in traditional medicine for about fifty types of disorders, ornamental tree
- **Location:** Vinay Sadan

Fellicium decipiens

- Common Name: Madagascar almond
- Telugu Name: Patta Kunkudu
- Family: Sapindaceae
- Genus: Fellicium
- Species: F. Decipiens
- Type: Evergreen tree with spherical form
- Native To: India
- Uses: Primarily grown for foliage and shade
- Location: GIMSR

Greviela robusta

- **Common Name:** Silver Oak
- **Family:** Proteaceae
- **Genus:** Greviella
- **Species:** G.robusta
- **Type:** Fast growing evergreen tree
- **Native to :** Rainforests of Australia
- **Uses:** Avenues, Parks and gardens, drought resistant, Used for shade in coffee plantations
- **Location:** GITAM Bhawan

Hamelia patens

- **Common Name:** Fire bush
- **Family:** Rubiaceae
- **Genus :** Hamelia
- **Species:** H.Patens
- **Type:** Perennial shrub or small tree
- **Native To:** American sub-tropics
- **Uses:** Attracts hummingbirds and butterflies, Leaves medicinal
- **Location:** Gandhi Park

Heliconia psittacorum

- **Common Name:** Parrot's beak
- **Family:** Heliconiaceae
- **Genus:** Heliconia
- **Species:** H.psittacorum
- **Type:** Perennial herb
- **Native To:** The Caribbean and S.America
- **Uses:** Tropical ornamental plant
- **Location:** GIMSR

Hibiscus rosa-sinensis

- Common Name: Red Hibiscus
- Telugu Name: Mandaram, Jasum
- Family: Malvaceae
- Genus: Hibiscus
- Species: *H. rosa-sinensis*
- Type: Bushy evergreen shrub
- Native To: East Asia
- Uses: Flowers edible, medicinal
- Location: Gandhi Park

Hyophorbe lagenicaulis

- **Common Name:** Bottle Palm
- **Telugu Name:** Bottle Palm
- **Family:** Arecaceae
- **Genus:** Hyphorbe
- **Species:** H.lagencaulis
- **Type:** Slow growing palm
- **Native To:** Round Island, Mauritius
- **Uses:** Parks and gardens, outstanding accent palm, very salt tolerant
- **Location:** Opp. Gandhi Park

Impatiens balsamina

- Common Name: Balsam
- Telugu Name: Gulivinda
- Family: Balsaminaceae
- Genus: Impatiens
- Species: I.balsamina
- Type: Annual plant with a thick but soft stem
- Native To: South East Asia
- Uses: Medicinal plants
- Location: Opp.GIS

Ixora coxiana

- **Common Name:**
- **Telugu Name:** Nuruvarahalu
- **Family:** Rubiaceae
- **Genus:** Ixora
- **Speicies:** I.coccinea
- **Type:** Multi-branched evergreen shrub
- **Native To:** Tropical Asia and sub-tropical U.S.A
- **Uses:** : Gardens, medicinal plant, hedges and screens and foundation planting
- **Location:** Median next to Gandhi Park

Jacaranda mimosifolia

- **Common Name:** Blue Jacaranda, Fern Tree
- **Telugu Name:** Gangaraavi
- **Family:** Bignoniaceae
- **Genus:** Jacaranda
- **Species:** J.mimosifolia
- **Type:** Deciduous
- **Native To:** Brazil
- **Uses:** Ornamental Tree, Gets profusely covered with blue flowers in May
- **Location:** GIMSR

Lantana camara

- **Common Name:** Red Sage
- **Telugu Name:** Pulikampa
- **Family:** Verbenaceae
- **Genus:** Lantana
- **Species:** L.camara
- **Type:** Small perennial shrub
- **Native To:** Central and South America
- **Uses:** Planted to embellish gardens, attracts butterflies
- **Location:** Median near GIS

Lantana 'New Gold'

- **Common Name:** Lantana New Gold
- **Telugu Name:** Pulikampa
- **Family:** Verbenaceae
- **Genus:** Lantana
- **Species:** L.camara
- **Type:** Small perennial shrub
- **Native To:** Central and South America
- **Uses:** Planted to embellish gardens, attracts butterflies
- **Location:** Median near GIS

Lantana sellowiana

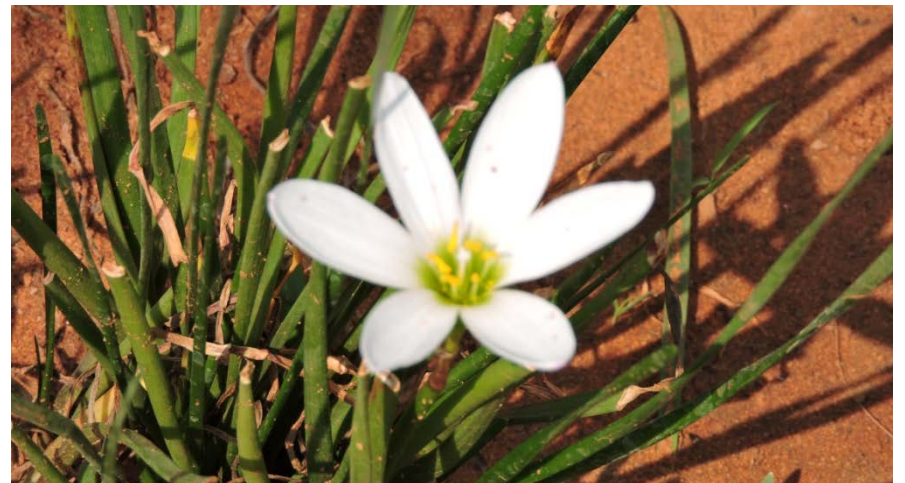

- Common Name: Purple Lantana
- Telugu Name: Pulikampa
- Family: Verbenaceae
- Genus: Lantana
- Species: L.camara
- Type: Small perennial shrub
- Native To: Central and South America
- Uses: Planted to embellish gardens, attracts butterflies
- Location: Median near GIS

Lilium longiflorum

- Common Name: White Trumpet Lily
- Telugu Name: Kaluva puvvu
- Family: Liliaceae
- Genus: Lilium
- Species: L.longifolium
- Type: Bulb growing upto 1metre height
- Native To: East Asia, Southern Japan
- Uses: Ornamental and medicinal
- Location: GIMSR

Magnolia champaca

- **Common Name:** Champak,
- **Telugu Name:** Sampangi
- **Family:** Magnoliaceae
- **Genus:** Magnolia
- **Species:** M.champaca
- **Type:** Evergreen Tree
- **Native To:** India, China, Thailand, Malaysia, Indonesia, and Nepal
- **Uses:** Fragrant flowers, timber used in woodworking
- **Location:** In front of GIM building

Mangifera indica

- **Common Name:** Mango
- **Telugu Name:** Mamidi Chettu
- **Family:** Anacardiaceae
- **Genus;** Mangifera
- **Species:** M.indica
- **Type:** Deciduous
- **Native To:** India, Pakistan and Bangladesh
- **Uses:** Avenues,for shade,, medicinal properties,
- **Location:** Behind Kokila Sadan

Manilkara zapota

- **Common Name:** Sapodila, Sapota
- **Telugu Name:** Sima Eppachettu
- **Family:** Sapotaceae
- **Genus:** Manilkara
- **Species:** M.zapota
- **Type:** Long lived evergreen tree
- **Native To:** Mexico, and the Americas
- **Uses;** Nutritious fruit with many medicinal properties
- **Location:** Visveswarya Bhavan

Markhemia lutea

- **Common Name:** Nile Trumpet Flower
- **Telugu Name:** Vadi
- **Family::** Rubiaceae
- **Genus :** Markhemia
- **Species:** M.lutea
- **Type:** Evergreen tree with large leaves and yellow trumpet shaped flowers
- **Native To:** Tropical Africa
- **Uses:** Parks and Gardens.
- **Location:** Gandhi Park

Milingtonia hortensis

- **Common Name:** Indian Cork Tree, Akash Neem
- **Telugu Name:** Kavuku, Boddu Malle
- **Family:** Bignoniaceae
- **Genus:** Millingtonia
- **Species:** M.hortensis
- **Type** Evergreen Tree
- **Native To:** South and South East Asia
- **Uses:** Avenues, Parks and Gardens
- **Location:** Opp.Gitam Bhawan

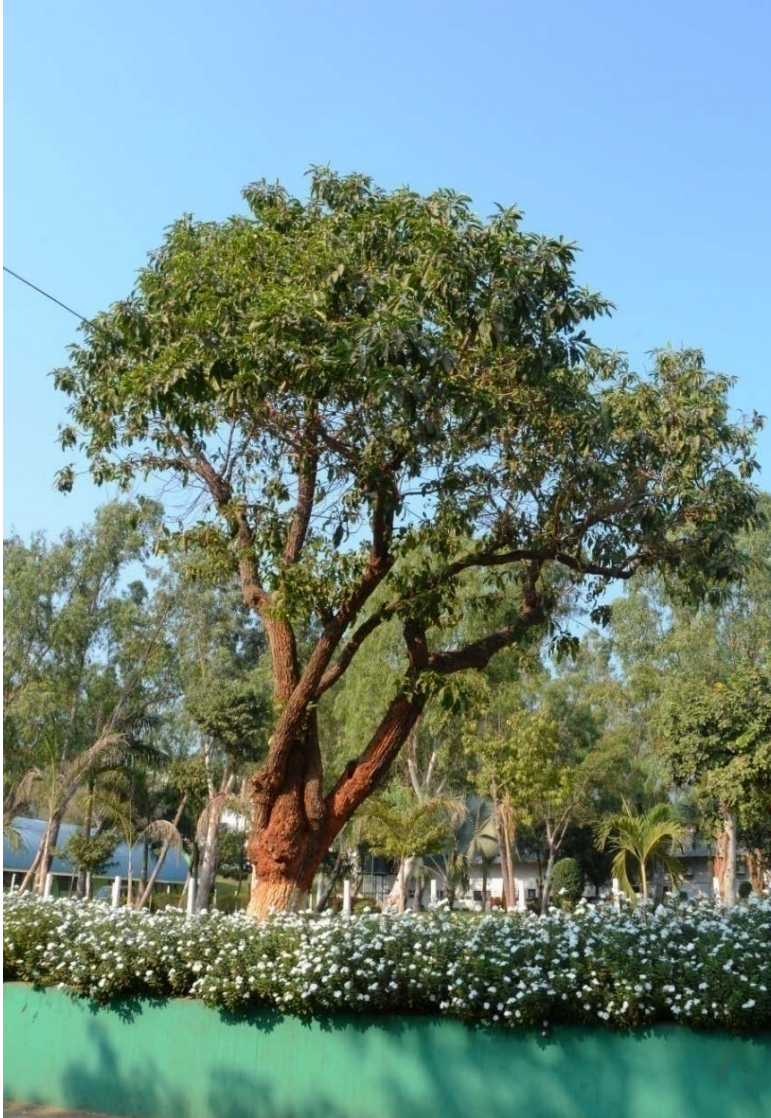

Mimumsops elengi

- **Common Name:** Medlar, Bullet Wood
- **Telugu Name:** Pogada
- **Family:** Sapotaceae
- **Genus:** Mimumsops
- **Species:** M.elengi
- **Type:** Medium-sized evergreen tree
- **Native To :** Native to Asia and Australia
- **Uses:** Shade tree. Bark, flowers, fruit and seeds are used in Ayurvedic medicine.
- **Location:** Adjacent to N.T.R.Park

Morinda tinctoria

- **Common Name:** Indian Mulberry, Togara
- **Family:** Rubiaceae
- **Genus:** Morinda
- **Species:** M.tinctoria
- **Type:** Evergreen shrub or small tree
- **Native To:** Southern Asia
- **Uses:** Plant cultivated extensively in India to make the morindone dye.
- **Location:** Opp. Bheema's Canteen

Mussaenda frondosa

- **Common Name:** Wild Mussaenda , Dhobi Tree
- **Family:** Rubiaceae
- **Genus:** Mussaenda
- **Species:** M.frondosa
- **Type:** Small shrub
- **Native To:** India, Nepal, Sri Lanka, Cambodia, Vietnam, Malaysia and Indonesia
- **Uses:** Avenues, Parks and Gardens, Attractive purple flowers
- **Location:** In front of Kokila Sadan

Mussaenda phillipica 'Queen Sirikit'

- Common Name: Mussaenda Queen Sirikit
- Telugu Name: Vellila
- Family: Rubiaceae
- Genus:
- Species:
- Type: Evergreen
- Native To:
- Uses: Ornamental plant, medicinal uses
- Location: Cotton Bhawan

Musa acuminata

- Common Name: Banana
- Telugu Name: Arti
- Family: Musaceae
- Genus: Musa
- Species: M.acuminata
- Type: Evergreen perennial
- Native To: Malaysia and Indo China
- Uses: Food, building materials, fibre
- Location: Kokila Sadan

Neolamarckia cadamba

- **Common Name:** Kadamb
- **Telugu Name:** Rudraskamba
- **Family:**
- **Genus:**
- **Species:**
- **Type:** Evergreen
- **Native To:**
- **Uses:** Ornamental parks, timber and paper making
- **Location:** Opp. Bheema's canteen

Nerium oleander

- **Common Name:** Oleander, Kaner
- **Telugu Name:** Ganneru
- **Family:** : Apocynaceae
- **Genus:** Nerium
- **Species:** N.oleander
- **Type:** Evergreen shrub
- **Native To:** Mauritania, Morocco and Portugal
- **Uses:** Ornamental plants in parks, along roadsides and as a windbreak
- **Location:** GIMSR

Ocimum tenuiflorum

- Common Name: Holy Basil, Tulsi
- Telugu Name: Tulasi
- Family: Lamiaceae
- Genus: Ocimum
- Species: O.tenuiflorum
- Type: Small perennial shrub
- Native To: Indian subcontinent
- Uses: Cultivated for religious and medicinal purposes
- Location: Gandhi Park

Pandanus tectorius

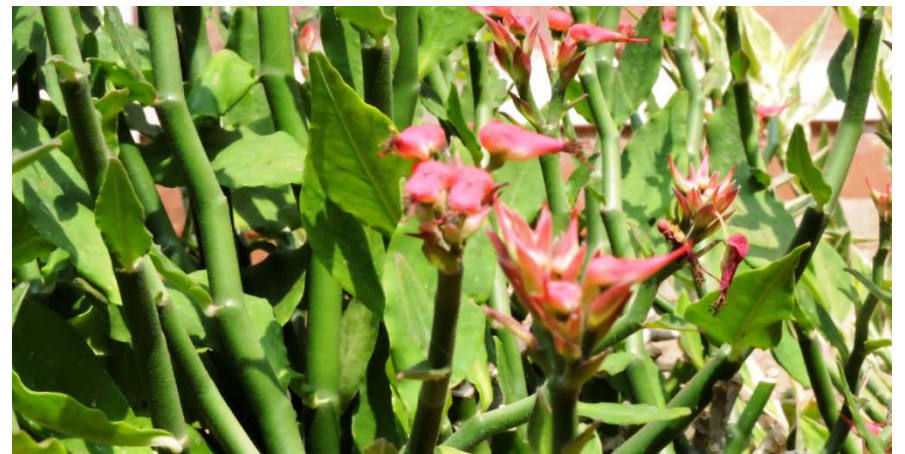

- **Common Name:** Screw Pine, Screw Palm
- **Telugu Name:** Mugali
- **Family:** Pandanaceae
- **Genus:** Pandnus
- **Species:** P.tectorius
- **Type:** Palm like
- **Native To:** Atolls of Polynesia, Atlantic and Indian Oceans
- **Uses:** Drought resistant, medicinal properties, leaves used for making mats.
- **Location:** Opp. Gitam Centre

Pedilanthus tithymaloides

- Common Name: Devil's Backbone
- Telugu Name: Kanchipala, nalla mandu
- Family: Euphorbiaceae
- Genus: Pedilanthus
- Species: P.tithymaloides
- Type: Evergreen
- Native To: Tropical Americas
- Uses: Hedge/ border plant, can be trimmed
- Location: Visveswariah Bhawan

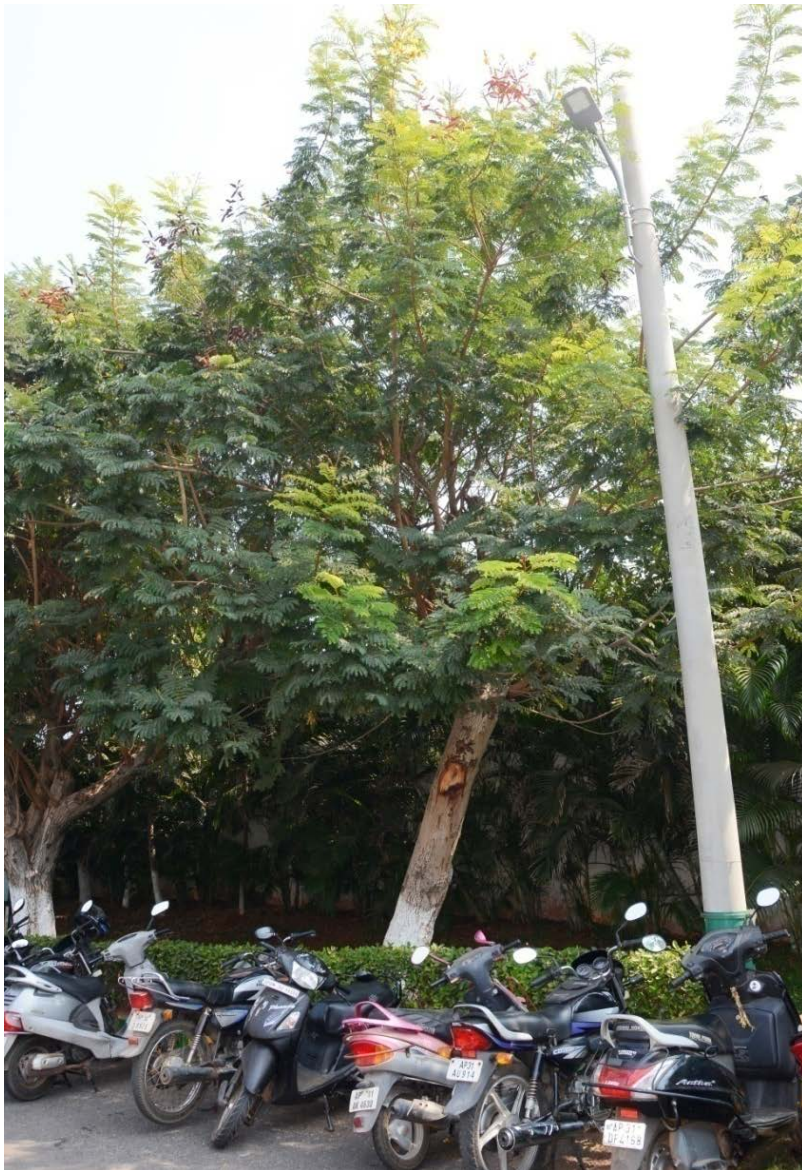

Pentalinon luteum

- **Common Name:** Yellow mandevilla
- **Telugu Name:** Alamanda
- **Family:** Apocynaceae
- **Genus:** Pentalinon
- **Species:** P.luteum
- **Type:** Vining plant
- **Native To:** Carribean, Honduras and Florida
- **Uses:** Ornamental vine with yellow flowers
- **Location:** New Bheema's Canteen

Peltophorum pterocarpum

- **Common Name:** Yellow flame tree
- **Telugu Name:** Konda Chinta
- **Family:** Fabaceae
- **Genus:** Peltophorum
- **Species:** P. pterocarpum
- **Type:** Deciduous
- **Native to :** Asia and Australasia
- **Uses:** Ornamental Tree, foliage used as fodder crop.
- **Location:** Opp. Gitam Centre

Pieris japonica

- **Common Name:** Japanese peiris
- **Family:** Ericaceae
- **Genus:** Pieris
- **Species:** P. japonica
- **Spread:** 6-8 feet
- **Type:** Evergreen shrub
- **Ecology:** Native to Japan, Taiwan, E.China
- **Uses:** Mass, group planting, shrub borders
- **Location:** Front of Kokila Bhavan

Phoenix sylvestris

- **Common Name:** Silver Date Palm
- **Family:** Acanthaceae
- **Height :** 1m
- **Spread:** 10-14m
- **Type:** Evergreen shrub
- **Ecology:** Native to India
- **Ecology:** Native to India and Sri Lanka
- **Uses:**
- **Location:** Opp. Bheema's canteen

Pisonia alba

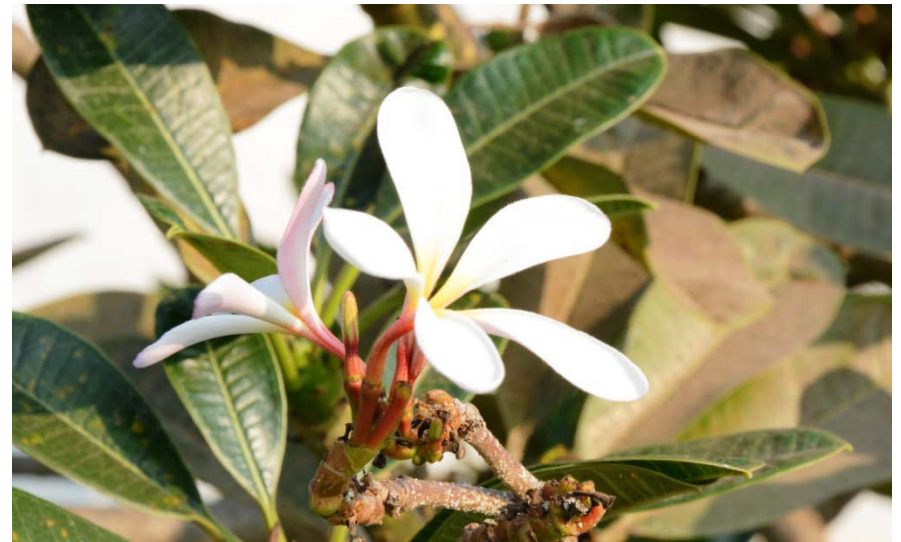

- **Common Name:** Lettuce Tree
- **Telugu Name:**
- **Family:** Nyctaginaceae
- **Genus:** Pisonia
- **Species:** P.alba
- **Type:** Small evergreen foliage tree
- **Native To:** Andaman Islands
- **Uses:** Grown for its bright foliage, leaves have medicinal value
- **Location:** Next to Visveswariah Bhawan

Plumeria alba

- **Common Name:** Frangipani, Champa
- **Telugu Name:** Nuruvarahalu, Tella Deva Ganneru
- **Family:** Apocynaceae
- **Genus:** Plumeria
- **Species:** P.alba
- **Type:** Evergreen shrub
- **Native To:** Carribean and Central America
- **Uses:** Avenues, Parks and Gardens, Attractive white scented flowers
- **Location:** Gitam Bhawan

Plumeria pudica

- **Common Name:** Fiddle leaf plumeria, Bridal boquet
- **Telugu Name:**
- **Family:** Apocynaceae
- **Genus:** Plumeria
- **Species:** P. pudica
- **Type:** Evergreen shrub with unusual spoon shaped leaves and white flowers with a yellow centre
- **Native To:** Panama, Venezuela and Colombia
- **Uses:** Ornamental plant in gardens and parks
- **Location:** Front of Gitam Centre

Plumeria rubra

- **Common Name:** Frangipani
- **Telugu Name:** Deva Ganneru
- **Family:** Apocynaceae
- **Genus:** Plumeria
- **Species:** P. rubra
- **Type:** Deciduous shrub or small tree
- **Native To:** Mexico and Colombia and Central America
- **Uses:** Medium height ornamental plant
- **Location:** Visveswaraih Bhavan

Polyalthia longifolia

- **Common Name:** Mast Tree, Ahoka
- **Telugu Name:** Nara mamidi
- **Family:** Annonaceae
- **Genus:** Polyalthia
- **Species:** P.longifolia
- **Type:** Evergreen, weeping branching, columnar shape
- **Native To:** India
- **Uses:** Avenue Tree
- **Location:** Right side of Cotton Bhawan

Polyscias Balfournia

- Common Name: Dinner Plate Aralia
- Telugu Name:
- Family: Araliaceae
- Genus;
- Species
- Type:
- Native To:
- Uses: Ornamental Plant
- Location: Behind Visweswariah Bhavan

Pongamia pinnata

- Common Name: Indian Beech Tree, Karanj
- Telugu Name: Pungu
- Family: Fabaceae
- Genus: Pongamia
- Species: P. pinnata
- Type: Fast growing deciduous tree
- Uses: Drought tolerant, medicinal plant
- Location: Front of ICT Bhavan

Psidium Guajava

- Common Name: Guava, Amrood
- Telugu Name: Jaamchettu
- Family: Myrtaceae
- Genus: Psidium
- Species: P.Guajava
- Type: Small single or multitrunked tree
- Native To: Tropical Americas
- Uses: Flood, drought and wind resistant, fruit nutritious
- Location: Gandhi Park

Pyllanthus embellica

- Common Name: Amla
- Family:
- Height : 9-14m
- Spread: 10-14m
- Type: Decidous
- Uses: Avenues, Parks and Gardens, Attractive purple flowers
- Location: Bheemas Canteen

Rhapis excelsa

- **Common Name:** Broadleaf Lady Palm
- **Telugu Name:** Raphis palm
- **Family:** Arecaceae
- **Genus:** Rhapis
- **Species:** R.exelsa
- **Type:** A small indoor and outdoor plant
- **Native To:** Southern China and Taiwan
- **Uses:** Used in malls and offices because of its low light and humidity requirements
- **Location:** GIMSR

Ravenala madagascarensis

- **Common Name:** Traveller's Palm
- **Family:** Sterlitziaceae
- **Genus:** Ravenala
- **Species:** R.madagascariensis
- **Type:** Evergreen Tree
- **Native To:** Madagascar
- **Uses:** Parks and gardens, seed oil has antiseptic properties
- **Location:** Behind GSIB

Roystonea regia

- **Common Name:** Cuban Royal Palm
- **Telugu Name:** Vakka
- **Family:** Arecaceae
- **Genus:** Roystonea
- **Species:** R. regia
- **Type:** Palm
- **Native To:** Florida, Mexico and the Carribean
- **Uses:** Avenues, parks and gardens
- **Location:** Opp. GIS

Russelia juncea

- **Common Name:** Yellow Jade Ordhid
- **Family:** Magnoliaceae
- **Height :** 50m
- **Spread:** 10-14m
- **Type:** Evergreen
- **Uses:** fragrant flowers, and its timber used in woodworking
- **Location:** In front of GIM building

Santalum album

- **Common Name:** Indian Sandalwood
- **Telugu Name:** Chandanamu
- **Family:** Santalaceae
- **Genus:** Santalum
- **Species:** S.album
- **Type:** Evergreen
- **Native To:** Indian subcontinent
- **Uses:** Used as wood and oil in religious practices in India
- **Location:** Inside Sadarma Sadan

Sapindus emarginatus

- Common Name: Notched Leaf Soapnut
- Telugu Name: Kunkudi Chettu
- Family: Sapindaceae
- Genus: Sapindus
- Species: S.emarginatus
- Type: Medium to large sized deciduous tree
- Native To: Southern Asia
- Uses: Fruits possess medicinal properties
- Location: Ganesh Park

Sansevieria trifasciata 'Laurenti'

- **Common Name:** Mother-in-law's tongue, Snake Plant
- **Telugu Name:** Pamu mokka
- **Family:** Asparagaceae
- **Genus:** Sansviera
- **Species:** S. Trifasciata
- **Type:** Evergreen perennial plant
- **Native To:** Africa
- **Uses:** Ornamental plant, hass air purification qualities as per the NASA Clean Air Study, drought resistant
- **Location:** Opp. Gitam Centre

Senna siamia

- **Common Name:** Kassod Tree
- **Telegu Name:** Sima Tangedu
- **Family:** Fabaceae
- **Genus:** Senna
- **Species:** S.siamia
- **Native To:** South and South East Asia
- **Type:** Medium sized evergreen tree with yellow flowers
- **Uses:** Windbreaks, shelterbelts, medicinal properties
- **Location:** Gandhi Park

Sphagneticola trilobata

- **Common Name:** Wedelia, Singapore Daisy
- **Family:** Asteraceae
- **Genus:** Sphagneticola
- **Species:** S.trilobata
- **Type:** Evergreen
- **Native To:** Mexico, Central America and Caribbean
- **Uses:** Ornamental groundcover
- **Location:** N.T.R. Park

Spathodea campanulata

- **Common Name:** African Tulip Tree
- **Telugu Name:** Patade
- **Family:** Bignoniaceae
- **Genus:** Spathodea
- **Species:** S.campanulata
- **Type:** Deciduous
- **Native To:** Tropical dry forests of Africa
- **Uses:** Avenues, parks and gardens. Attracts birds like Myna, Parrot, Black Jacobin or the Gilded Hummingbird.
- **Location:** Near Shirdi Sai Temple

Sweitenia mahagoni

- **Common Name:** Mahogany
- **Telugu name:** Mahagani
- **Family:** Meliaceae
- **Genus:** Sweitenia
- **Species:** S.mahagoni
- **Type:** Large semi-evergreen tree
- **Native To:** Southern Mexico and Brazil
- **Uses:** Wood used for furniture, medicinal uses
- **Location:** Gandhi Park

Sweitenia mahagony (lambu)

- **Common Name:** Big Leaf Mahogani
- **Telugu Name:** Peddakkula Mahagoni
- **Family:** Meliaceae
- **Genus:** Sweitenia
- **Species:**
- **Type:** Evergreen
- **Native To:**
- **Uses:** Wood used for furniture, medicinal uses
- **Location:** Gandhi Park

Syzygium cumini

- **Common Name:** Black Plum, Jamun
- **Telugu Name:** Neredu Chettu
- **Family:** Myrtaceae
- **Genus:** Syzygium
- **Species:** S.cumini
- **Type:** Medium sized evergreen tree
- **Native To:** India
- **Uses:** Dense foliage provides shade, seeds of fruit have medicinal properties.
- **Location:** Front of Civil Engg. Department

Tabebuia pallida

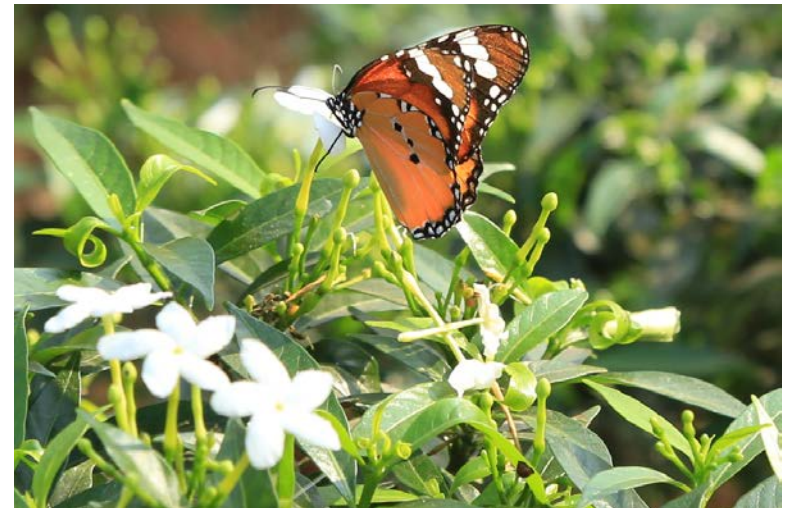

- **Common Name:** Pink Tecoma
- **Family:** Bignoniaceae
- **Genus:** Tabebuia
- **Species:** T.pallida
- **Type:** Large shrub or evergreen tree
- **Native To:** Carribean
- **Uses:** Specimen, Street Tree
- **Location:** Behind GSIB

Tabernae montana divaricata

- **Common Name:** Crape Jasmine
- **Telugu Name:** Nandivardhanam
- **Family:** Apocynaceae
- **Genus :** Tabernaemontana
- **Species:** T. divaricata
- **Type:** Evergreen Shrub
- **Ecology:** Native to India
- **Uses:** Avenues, parks and gardens
- **Location:** Visveswarraih Bhavan

Tabernae montana variegata

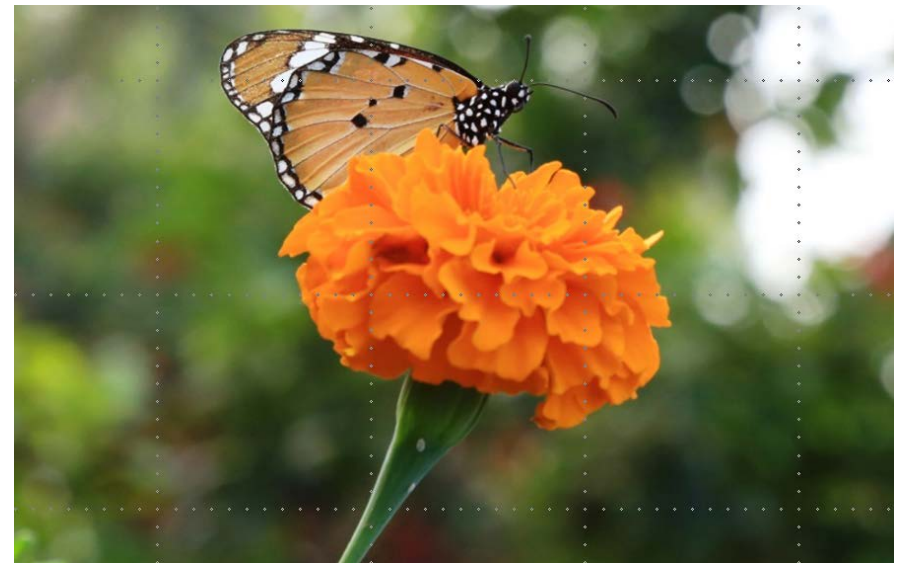

- **Common Name:** Variegated Pinwheel Jasmine
- **Telugu Name:** Nandivardhanamu
- **Family:** Apocynaceae
- **Genus:** Tabernaemontana
- **Species:** T.variegata
- **Type:** Evergreen shrub or small tree
- **Native To:** South Asia
- **Uses:** Ornamental hedging plant
- **Location:** Visveswariah Bhawan

Tagetes erecta

- **Common Name:** Mexican Marigold
- **Telugu Name:** Mudda Banti Puvu
- **Family:** Asteraceae
- **Genus:** Tagetes
- **Species:** T.erecta
- **Type:** Annual growing at a medium rate
- **Native To:** Mexico
- **Uses:** Medicinal, decorative and ceremonial purposes
- **Location:** GIMSR

Tamarandus indica

- **Common Name:** Neem
- **Telugu Name:** Chinta chettu
- **Family:** Fabaceae
- **Genus:** Tamarindus
- **Species:** T.indica
- **Type:** Leguminous evergreen tree
- **Native To:** Tropical Africa and India
- **Uses:** furniture, edible fruit pulp, medicinal properties, drought and salt resistant
- **Location:** Near GIM

Tecomaria capensis

- **Common Name:** Cape Honey Suckle
- **Telugu Name:** Tecoma
- **Family:** Bignoniaceae
- **Genus:** Tecoma
- **Species:** T.capensis
- **Type:** Evergreen scrambling shrub
- **Native To:** South Africa
- **Uses:** Hedging plant medicinal plant
- **Location:** Gandhi Park

Tecoma castanifolia

- **Common Name:** Tecoma Gaudi Chaudi
- **Telugu Name:** Pacchagottla
- **Family:** Bignoniaceae
- **Genus:** Tecoma
- **Species;** T. castanifolia
- **Type:** Shrub/Tree
- **Native To:** Ecuador and Peru
- **Uses:** Avenues, Parks and Gardens, Attractive yellow flowers
- **Location:** N.T,R, Park

Tectona grandis

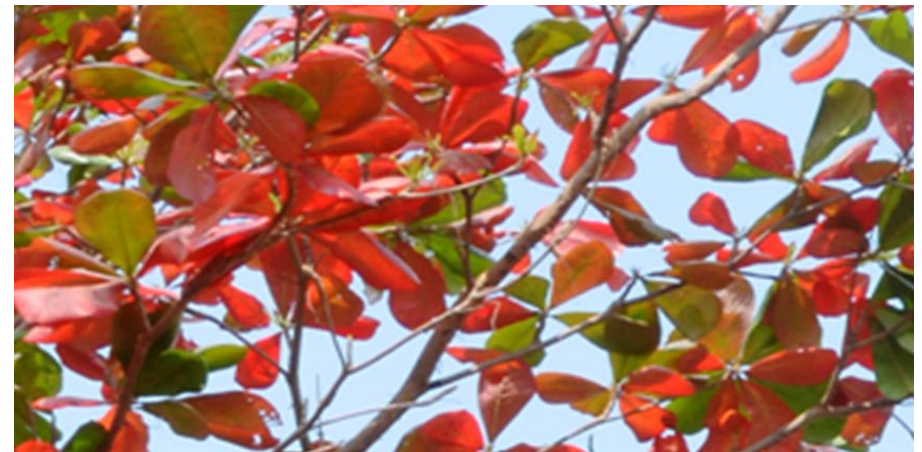

- **Common Name:** Teak
- **Telugu Name:** Teku
- **Family:** Lamiaceae
- **Genus:** Tectona
- **Species:** T.grandis
- **Type:** Deciduous, hardwood tree
- **Native To:** India, Pakistan, Burma, Bangladesh, Indonesia and Thailand
- **Uses:** Source of most commercial teakwood products
- **Location:** Near GIM Building

Terminalia catappa

- **Common Name:** Badam, Indian Almond Tree
- **Telugu Name:** Tapasataruvu, Badam chettu
- **Family:** Combretaceae
- **Genus:** Terminalia
- **Species:** T.catappa
- **Type:** Deciduous tree with upright symmetrical crown and horizontal branches
- **Native To:** Tropical regions of Asia, Africa and Australia
- **Uses:** Avenues, Parks and Gardens,
- **Location:** Near New Bheema's Canteen

Terminalia mantaly

- Common Name: Madagascar almond
- Family: Magnoliopsida
- Genus: Terminalia
- Species: T.mantaly
- Type: Evergreen tree with layered branches
- Native To: Madagascar
- Uses: Shade tree, used for reforestation, drought resistant once established
- Location: GIMSR

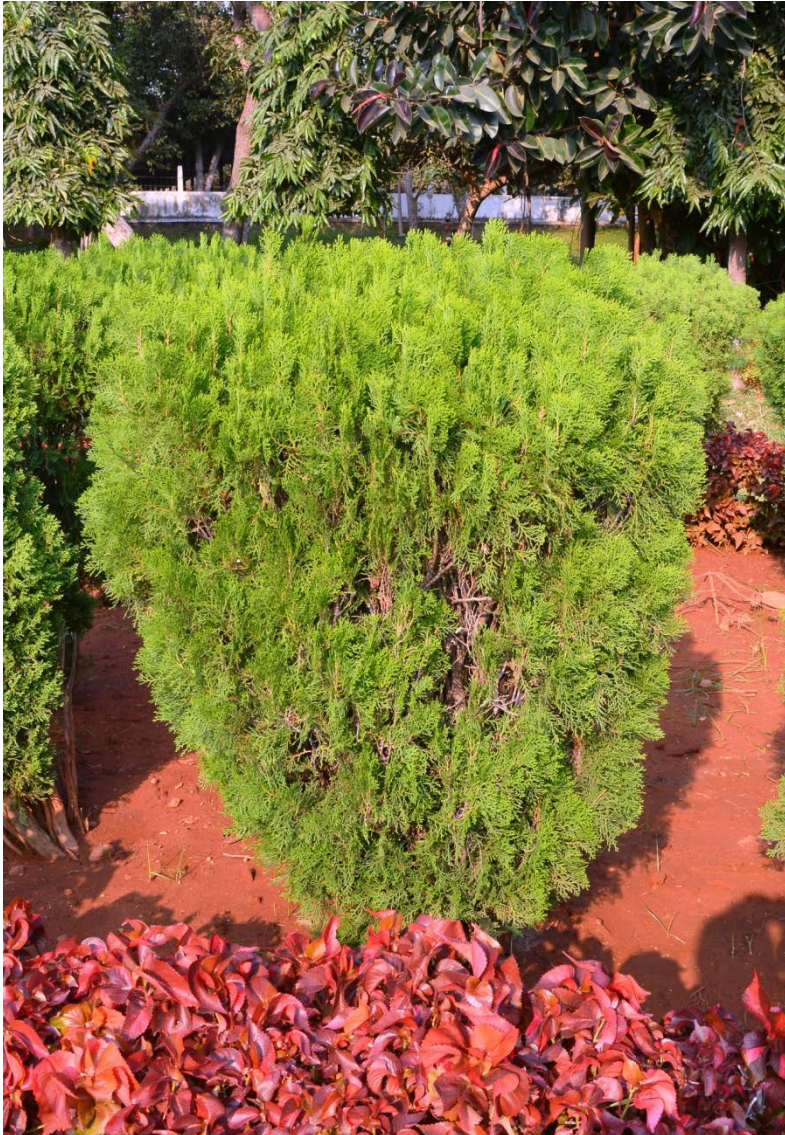

Thespesia populnea

- **Common Name:** Portia tree
- **Telugu Name:** Gangaraavi
- **Family:** Malvaceae
- **Genus:** Thespesia
- **Species:** T.populnea
- **Type:** Small tree or arborescent shrub
- **Native To:** India and Hawaiiian Islands
- **Uses:** Wood used for carving and making instruments
- **Location:** Near Gitam Bhawan

Thuja orientalis

- **Common Name:** Chinese arborvitae, Morpankhi
- **Telugu Name:** Thuja
- **Family:** : Cupressaceae
- **Genus:** Nerium
- **Species:** N.oleander
- **Type:** Evergreen Shrub/Tree
- **Native To:** China
- **Uses:** Ornamental, pollution resistant, medicinal
- **Location:** Gandhi Park

Trachycarpus fortunei

- **Common Name:** Chinese Windmill Palm
- **Telugu name:** Taati Chettu
- **Family:** Arecaceae
- **Genus:** Trachycarpus
- **Species:** T. fortunei
- **Type:** Trunking Palm
- **Native To:** China, Japan, Burma and India
- **Uses:** Avenues, parks, gardens. One of the world's hardiest palms.
- **Location:** Near Ravindra Sadan

Tradescantia pallida

- Common Name: Purple Heart
- Telugu Name: Golla gandi
- Family: Commelinaceae
- Genus: Tradescantia
- Species : T. Pallida
- Type: Evergreen perennial succulent
- Native To: Mexico
- Uses: Groundcover and phyto-remediation plant. Filters out volatile organic compounds

Location: Gandhi Park

Tradescantia spathecia

- Common Name: Moses-in-the-Cradle
- Telugu Name: Rheos
- Family: Commelinaceae
- Genus: Tradescantia
- Species: T.spathecia
- Type: Evergreen
- Native To: Belize, Guatmela
- Uses: Attractive foliage plant
- Location: Behind GSA

Veitchia merrilli (gold)

- **Common Name:** Manila Palm
- **Telugu Name:** Manila Palm
- **Family:** Arecaceae
- **Genus:** Veitchia
- **Species:** V.merrilli
- **Type:** Palm with a single stem with compact crown
- **Native To:** Phillipines
- **Uses:** Ornamental palm
- **Location:** Next to Visveswariah Bhawan

Veitchia merelli (green)

- **Common Name:** Manila palm
- **Family:** Arecaceae
- **Genus:** Veitchia
- **Species:** V.merrilli
- **Type:** Evergreen
- **Native To:** Philippines
- **Uses:** Drought resistant, the bark and wood are astringent. Avenues and gardens.
- **Location:** Near Industrial Engg. Building

Wodyetia bifurcata

- **Common Name:** Foxtail Palm
- **Telugu Name:** Foxtail Palm
- **Family:** Arecaceae
- **Genus:** Wodyetia
- **Species:** W.bifurcata
- **Type:** Palm
- **Native To:** Australia
- **Uses:** Avenues, parks, gardens. One of the world's most popular palms.
- **Location:** Opp. Gandhi Park

Zamia zamaiculus

- **Common Name:** ZZ Plant, Zanzibar Gem
- **Family:** Araceae
- **Genus:** Zamiodulcaderoideae
- **Species:** Z.zamifolia
- **Type:** Herbaceous evergreen plant
- **Native To:** Eastern and South Africa
- **Uses:** Air purifying qualities for the indoor environment
- **Location:** GIMSR
