

HEAM SCIENTIST- 2018

Hydrogen is considered to be an ideal and clean energy fuel in the foreseeable future. It is important to bring the scientists, engineers and researchers in hydrogen energy and advanced materials fields together, so that they can exchange their research results and build upon them, and eventually help to convert their country to Hydrogen Economy. In this direction, Indian Association for Hydrogen Energy and Advanced Materials (IAHEAM) in association with ONGC and University of Kerala organizing a “National Competition for Young Scientists” in the field of “Hydrogen Energy and Advanced Material” every year and awarding “Best Scientists” and “Best Scholars” with cash prize. In the recent event, **Ms. Madhavi Konni** working with Prof. M. Saratchandra Babu, Dept. of Chemistry, GIS received '**HEAM SCHOLAR-2018' award (National Award) with Rs. 10,000/- cash prize** for best oral presentation organized at University of Kerala, Thiruvananthapuram during 5-6 March 2018.
